APPENDIX II

PAN APPLICATION REVIEW PROCESS

APPENDIX III - CMAC Technical Evaluation Form

Eligible applications will be evaluated by the Coastal Management Advisory Council (CMAC). The review committee will assess applications as a whole and provide individual scores, comments, and/or recommendations. CMAC will rate all applications using the following scale:

- 3 = Strong
- 2 = Average
- 1 = Weak
- 0 = Unacceptable

TECHNICAL POINTS TO BE REVIEWED	SCORE (0-3)
Project relevance: Does the project address an issue and/or priority that is identified in the existing resource management plan?	
Community involvement: Is there strong community support for the project, as reflected by the participation of the LRC members?	
Focal area: Does the project fit under one or more of the four focal areas?	
Objectives: Do the objectives clearly convey the purpose of the project?	
Outcomes and Impact: Are the expected outcomes clearly articulated with positive impacts (environmental, economic, or social) on the Reimaanlok site?	
Budget: Is the detailed budget realistic and reasonable (reflects efficient use of funds to meet proposed objectives)?	
Supplementary Funding: Does the applicant offer special financial or in-kind commitments for project activities?	
Project activities and timeline: Are the activities clearly stated with realistic, attainable dates?	
Technical capacity: Does the applicant and any project partners have the ability and expertise to conduct the scope and scale of the proposed work?	
Sustainability: Is there a plan for funding the project after the PAN grant has ended?	
TOTAL SCORE (Out of 30 points)	

Overall comments:

Recommend application for PAN funding?

Yes ☐

No ☐
