Outer Islands Fish Market Center (OIFMC)

The fish market is emphasizing cleanliness and freshness.

“For All Your Fish Needs…”

FISH RETAIL

ABOUT OIFMC

The Outer Island Fish Market Center (OIFMC) is located in Uliga on Majuro Atoll. The facility was built in 2010 by funding from Japan International Cooperation Agency (JICA). The services visible to the general public are its fish collection efforts from outer island local fisherman. The primary function of the OIFMC is to generate revenue for outer island fisherman, and to improve food security by supplying Majuro consumers with fresh supplies of fish for food.

OPERATIONS

The OIFMC collects fish from different outer islands such as, Arno, Aur, Jaluit, Likiep, Maloelap, and Wotje.

Operations revolve around:

- Providing market opportunities for local fishermen; and
- Providing food security at its center of operation (Majuro).

FRESH FISH

SUN-DRIED MARLIN JERKY

SPICY OCTOPUS

PARROT FISH FILLET
